

## SCHOOL CALENDAR

The Board shall annually establish a school calendar for the succeeding school year. On or before April 1 of each year, the superintendent shall present to the Board his recommendation as to the school calendar for the succeeding school year. In making such recommendation, the superintendent shall consider the customs of the residents of the school district, holidays mandated by law and by Board of Education policies, athletic events schedules, the commencement and ending of "summer school" sessions of colleges and universities attended by employees of the school district, opening dates of member schools in South Central Kansas Special Education Cooperative and such other matters as the superintendent shall deem to be important or which may be referred to him by members of the Board of Education. The superintendent shall also consider the recommendations of the professional staff in the preparation of the school calendar, but the adoption of the school calendar shall not be a subject of discussion in the meet and confer process.
