

FRIDAY

# FROG FOCUS

## BACK TO SCHOOL

We kicked off this week with our first middle school football and volleyball games, cheering on our talented athletes as they battled it out on the field and court. The energy was electric, and the school spirit was high. In addition to our sports triumphs, the historic brainstorm challenge took place, sparking creativity and critical thinking among our students. To top it all off, GO time requirements officially began, encouraging students to work on targeted skills. It was a week filled with academic pursuits, athletic achievements, and a great sense of our character trait-Team!
