

LIBERTY MIDDLE SCHOOL

FROG FOCUS

January 19, 2024

Watching our 5th graders play on the blacktop Thursday afternoon was such a welcome sight as the cold days make our students a bit stir crazy. I popped in to a math classroom this week and the energy in the room as they started a new concept was truly special. We are always encouraging our students to get involved in school activities. We currently have 39 students wrestling, 32 students participating in Scholars Bowl, and another 28 participating in robotics. Research shows that when students are involved, they feel more connected to their school and therefore do better academically and socially. Great job Greenbacks!

Hill's Headlines
