

LIBERTY MIDDLE SCHOOL

FROG FOCUS

November 17, 2023

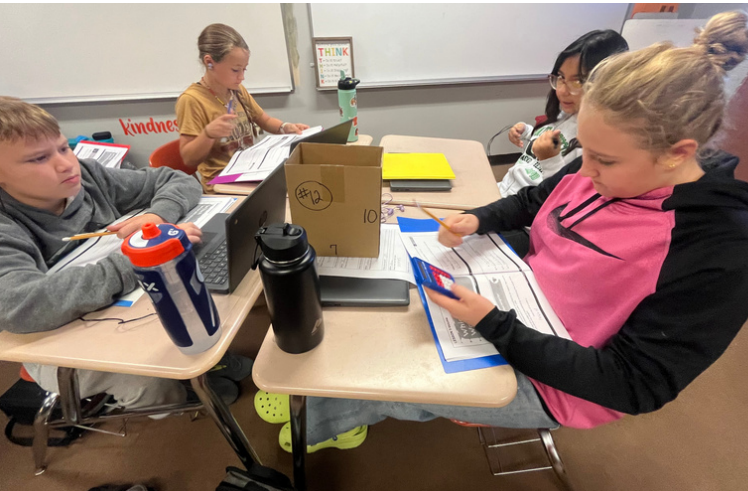

Check it out everyone, a lego Ribbert (see picture to the left). I just love it! Thanksgiving break is upon us and we have so much to be thankful for here at LMS. Our team of teachers and support staff work tirelessly to benefit our 360 current students. We are blessed with the best students and we hope everyone has a wonderful break. Mrs. Osenbaugh's 5th graders created a thankful tree this week-isn't it beautiful?

Basketball is off and running. Our teams are having success and working hard together. Many of our AB's are currently doing service projects that will lead us into the holiday season. We are collecting pop tabs for the Ronald McDonald house, a sock drive for the Hope Closet will be held in December, pen-pals are beginning with an assisted living facility in town, and we just finished supporting the Drive to Thrive to stock the food bank.

As I made the rounds in classrooms this week, it was exciting to see all the hands on science projects that are a part of our new curriculum, along with hands-on math lessons taking place (see below)-students learning how to find surface area and volume using the boxes Mrs. Pelland provided. Can you find the surface area? Look closely. Enjoy the break and Happy Thanksgiving to everyone!
